IT It seems to be the determination of the people of this county forever to as the "Court House." The commissionets are again at work, patching it up as though they were determined to force the Lolding of courts in it as long as the brick and mortar hold together. They seem to forget that they have already invested \$4,000 of the people's money in a lot whereon to erect a new building-they seem to forget that the interests of this people demand a new building, with fireproof vaults, wherein the records of the county may be preserved. They seem to forget that the old rickety unsafe building, wherein the records of the county are now kept, is liable every hour to be burned, and that no amount of money could repair the loss. But if the commissioners must repair the old bulding, and thus postpone the erection of a new Court House, let it be thoroughly repairdecent manner.

Covide on Corruption. John Covole said in his Cleveland (O.)

"Printing contracts afforded a vast aty Convention for the purpose of nominamount of corruption money. Alexander, ting candidates for the following offices, a printer in Washington, offered to take a contract for half what was given for it, \$50,000, but he could not get it, of course. Pettibone drew up a bill to prevent these frude, and submitted it to Buchame, who said he would refer it to the Attorney-Probate Judge, General. He did so, and Pettibone afterwards found it sudorsed, "Referred to the Attorney-General, but not for au opinion." So Buchanan kept the printing for Wendell. Wendell never gave us testimony till he new we had it without him. I examined the bank books, and found checks payable to "Kansas," "E., C.," and some to one or another figure. Bean, of Ohio, got \$5,000. Somebody was curious to know what connection existed between these checks and the loss of anti-Lecompton men by the Republican side of the question.
